La Ceramica d'Eccellenza

Da luoghi lontani, sono giunti a noi tecniche ed effetti di colori suggestivi, sapori di una ceramica particolare per oggetti particolari che con ricerca e passione abbiamo adattato a superfici come fossero "opere d'arte".

Giocando con fuoco, acqua e terra ogni creazione è un pezzo unico ed irripetibile, ogni gesto usato è rimasto impresso nel tempo e non sarà mai più uguale ad un altro, ed ogni piastrella diventa un pezzo di sogno da vivere, di suggestione da provare...

From places far from here, techniques and effects of attracting colours have come to us, flavours of a ceramic for particular objects that, with our passion and research, we have adapted to surfaces like if they were works of art.

Playing with fire, water and earth, each creation becomes a unique and inimitable piece; each gesture used to mould it has remained impressed on time and none will no more be the same as another; each tile becomes a part of a dream still to live, an emotion not yet experienced...

Из далёких мест к нам пришли техники и эффекты замечательных цветовых оттенков, вкус необыкновенной керамики для необыкновенных предметов, созданных со страстью как будто-бы произведения искусства. Играя с огнём, водой и землёй создаётся уникальное и неповторимое произведение, несущее отпечатки времени, каждая плитка становится воплощающимся сном....

La Moderna Manifattura

**E' la luce che rischiarà il buio,
è la fiamma che scaldà i colori,
è l'acqua che scorre a fissare
per sempre i segni del fuoco...**

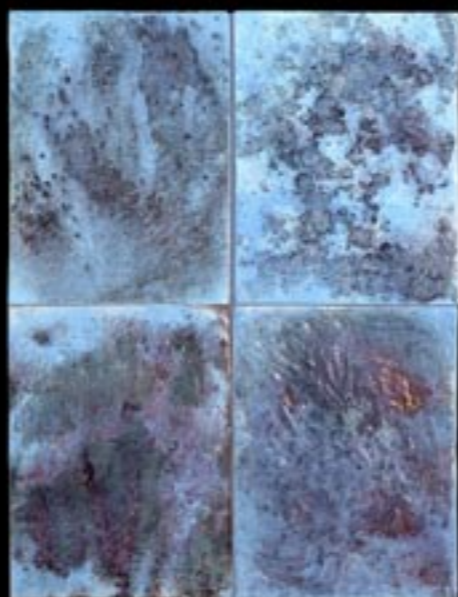

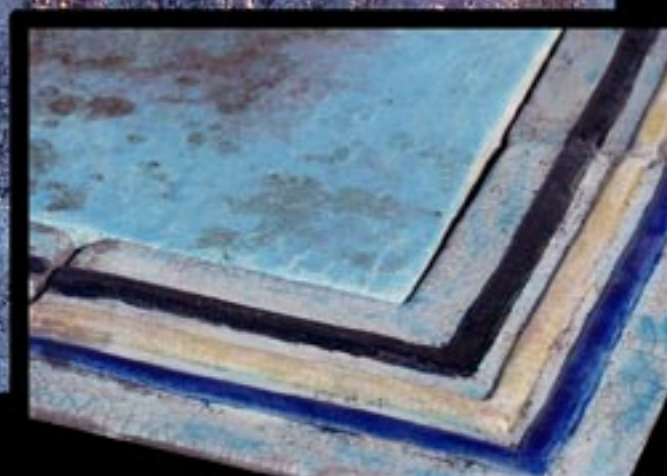

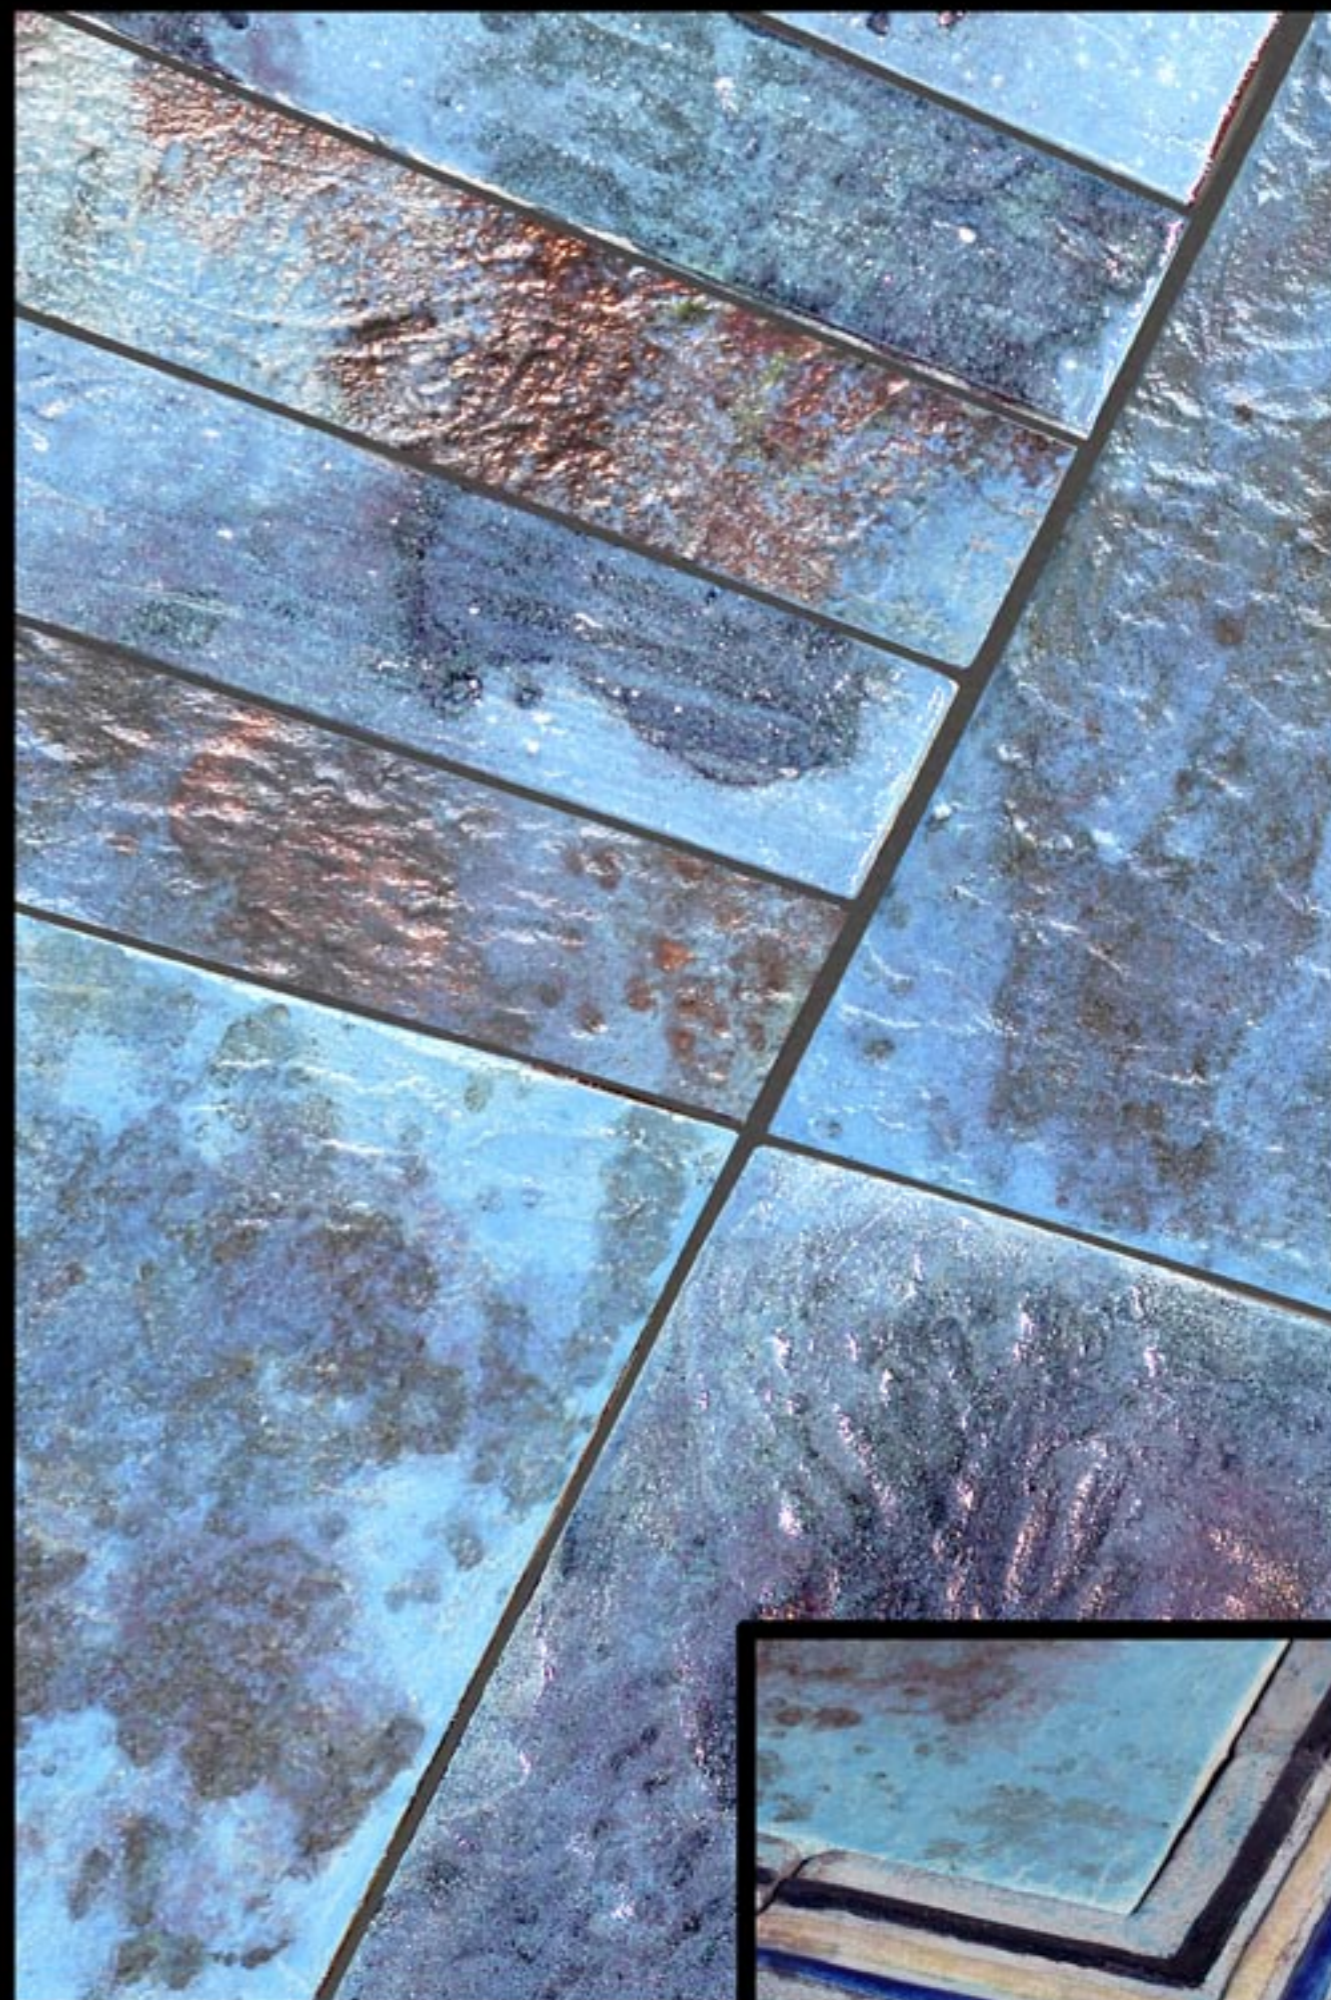

**It is light that lightens the dark,
it is flame that warms colours,
it is running water that fixes signs of fire forever.**

**Свет, который побеждает тень,
пламя, согревающее цвета,
вода, фиксирующая рисунок,
оставленный пламенем.**
